Rallywest competitors will be required to carry two fire extinguishers, each with a minimum 5BC rating.

Studded Tires:

Use of Studded Tires will be as per Western Canada Rally Championship Series Regulations. Section 4.0. Page 4. See www.rallywest.com download area. .

Vehicle Identification:

Car numbers will be assigned. These will be provided and must be placed on the front doors and on the rear passenger windows (or as close as possible) of the competing vehicles.

Fuel Stops:

There will be no fuel available at service areas or during transits. Crews should be instructed to carry sufficient fuel for their rally vehicle.

Type:

The rally is a performance rally consisting of special stages and transits. The total length of the event will be approximately 260 km with approximately 40% or 105 km of special stages.

Stage road surfaces include dirt, gravel and rock. There may be snow and ice. The rally runs in an area with variations in altitude: The stages range from approximately 1410 m to 1750 m above sea level.

Judges of Fact

During the 2009 Cochrane Winter Rally, from the opening of reconnaissance registration until results are declared final, the marshals shall be judges of fact according to GCR 6.3. Facts to be judged include: excessive speed on public roads, speeds registered on radar guns, and compliance with regulations governing: control zones, transits, competitor conduct, refuel zones, servicing, service areas and service crews. Excessive speed on public roads in a rally car (including overtaking/passing marshals and officials who are driving at the posted speed limit) may be automatically deemed equivalent to exceeding the speed limit by 20 kph (125 second penalty) or even a serious violation. See CARS NRR VI Assessment of Performance.

Awards

A list of awards will be posted at registration on February 28, 2009.

Timing and Scoring:

Timing, Controls and Scoring will be according to CARS National Rally Regulations IV., V., and VI. E. Timing. See Page B-29. The competitor will use the lateness time to calculate the time out at the end of the stage, unless the time spent in the stage is longer. If it is longer, the competitor must use the time at the stage finish in hours and minutes. All times given are elapsed times.

Reconnaissance:

Reconnaissance is available to add more precision to the standard routebook, or allow the competitors to run on pace notes, but it is not mandatory. Crews may copy notes, all or in part, from other teams. We have allowed 3/4 hour for reconnaissance registration but it is

strongly recommended you be there first thing in the morning to get the most out of reconnaissance time. Competitors doing reconnaissance will receive their registration package at this time. **Do not affix your numbers on your rally cars until arrival at technical inspection.**

Regulations Governing Reconnaissance

1. Competitors must register for reconnaissance at Rally Headquarters on Saturday 28 February and to obtain documents necessary to do reconnaissance.
2. Reconnaissance is expressly prohibited outside of the designated times. Reconnaissance may only be carried out according to the event schedule.
3. The maximum speed on the stages during reconnaissance is 60kph, or the posted legal limit, whichever is less. During reconnaissance the stages are open to the public and are often heavily traveled on Saturdays. Competitors will be sharing the roads with oncoming traffic.
4. There will be a maximum of 2 passages on each stage. When a stage is run in reverse, the crews may run the stage twice in each direction.
5. Competitor use of radar detection equipment during recce is prohibited.
6. Crews are strongly encouraged to use unmarked, non-competition, regular street vehicles for reconnaissance. Although rally cars will be permitted, crews are asked to find an alternative if at all possible. **If a rally car is used, the door numbers shall be removed.**
